**Intensive Treatment Mask**  
**Marine Enzyme 16ml**

*Jón Bragi Bjarnason*  
Dr Jón Bragi Bjarnason Ph.D.

## INTENSIVE TREATMENT MASK

An active enzyme mask that soothes, firms and hydrates.

A salon-inspired fabric treatment mask, boasting a double concentration of patented Dr Bragi marine enzymes. Designed to rapidly reduce redness, replenish moisture, even out skin tone and overall boost the appearance of stressed, fragile skin. Instantly, the skin appears smoother, plumper and brighter.

### SUPER-ACTIVE

The marine enzyme becomes 'super-active' at room temperature.

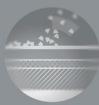

### DIFFUSING

Marine enzymes diffuse deeply into the layers of the epidermis, targeting the imperfections directly allowing for faster results.

### CALMING

The marine enzyme minimises redness, irritation and blotchiness.

### EXFOLIATING

Surface impurities and dead cells are gently dissolved, promoting a glowing, blemish-free complexion.

### SMOOTHING

The skin's surface is gently refined, improving the appearance of fine lines, wrinkles and enlarged pores.

### LIFTING

Through stimulating the production of collagen and elastin, the marine enzyme gives the skin a firmer and more youthful appearance.

### HYDRATING

The marine enzyme rebalances the skin's water content to ensure continual hydration.

Clean Active Different

### HOW TO USE

**For a complete Marine Enzyme treatment, use once or twice a week, ideally at night on freshly cleansed skin.**

**1** Using your fingertips, place the mask onto eye area first, then carefully spread it to the rest of face. Make sure the mask fits well onto skin, then relax. **Remove after 10-15 minutes.**

**2** Wipe any excess with a tissue and allow the face to dry. To ensure continual enzyme activity, do not rinse prior retiring to bed.

**Alternatively,** use as a pre-party complexion boost or after flying to comfort dehydrated skin.

Please contact us for further information through the website, by telephone or by emailing us directly.
